Contents

NUMBER 96

C. E. Pankhurst and Janet I. Sprent: Effects of Temperature and Oxygen Tension on the Nitrogenase and Respiratory Activities of Turgid and Water-stressed Soybean and French Bean Root Nodules 1

C. Gillet and J. Lefebvre: Action of Mono- and Difluorodinitrobenzene on Induced Electrical Modifications by External pH Changes in *Nitella* 10

W. J. Lucas: Plasmalemma Transport of HCO_3^- and OH^- in *Chara corallina*: Non-antiporter Systems 19

W. J. Lucas: The Influence of Ca^{2+} and K^+ on $H^{14}CO_3^-$ Influx in Internodal Cells of *Chara corallina* 32

Judith Wurzburger and Dov Koller: Differential Effects of the Parental Photothermal Environment on Development of Dormancy in Caryopses of *Aegilops Kotschyi* 43

Sudhir K. Sopory and S. C. Maheshwari: Development of Pollen Embryoids in Anther Cultures of *Datura innoxia* I. 49

Sudhir K. Sopory and S. C. Maheshwari: Development of Pollen Embryoids in Anther Cultures of *Datura innoxia* II. 58

E. Salomon: Formation of Adventitious Buds in Decapitated Citrus Seedlings and the Effect of Some Growth Regulators. 69

B. W. W. Grout, K. W. Chan, and I. Simpkins: Aspects of Growth and Metabolism in a Suspension Culture of *Acer pseudoplatanus* (L.) Grown on a Glycerol Carbon Source 77

L. C. HO: The Relationship Between the Rates of Carbon Transport and of Photosynthesis in Tomato Leaves 87

T. J. K. Dilks: Measurement of the Carbon Dioxide Compensation Point and the Rate of Loss of $^{14}CO_2$ in the Light and Dark in Some Bryophytes 98

Michael Knee, Stephen G. S. Hatfield, and Malinie Ratnayake: Limitations in the Use of Cycloheximide in Studies of Apple Ripening 105

J. Williams: Dependence of Root Water Potential on Root Radius and Density 121

P. J. Orton and T. A. Mansfield: Studies of the Mechanism by which Daminozide (B9) Inhibits Stomatal Opening 125

J. L. Burbano, T. D. Pizzolato, P. R. Morey, and J. D. Berlin: An Application of the Prussian Blue Technique to a Light Microscope Study of Water Movement in Transpiring Leaves of Cotton (*Gossypium hirsutum* L.) 134

T. D. Pizzolato, J. L. Burbano, J. D. Berlin, P. R. Morey, and R. W. Pease: An Electron Microscope Study of the Path of Water Movement in Transpiring Leaves of Cotton (*Gossypium hirsutum* L.) 145

Mary Edwards, Hans Meidner, and D. W. Sheriff: Direct Measurements of Turgor Pressure Potentials of Guard Cells II. 163

H. Meidner: Vapour Loss through Stomatal Pores with the Mesophyll Tissue Excluded 172

D. W. Sheriff: A New Dendrometer for the Measurement of Small Stems in the Laboratory 175

Book Reviews

Facteurs et Regulation de la Maturation des Fruits. J. C. Fidler 185

Harry Smith: Phytochrome and Photomorphogenesis. L.J. Audus 186

U. Zimmermann and J. Dainty: Membrane Transport in Plants. D. W. Lawlor 187

NUMBER 97

G. J. A. Ryle and C. E. Powell: Effect of Rate of Photosynthesis on the Pattern of Assimilate Distribution in the Graminaceous Plant 189

S. M. Glidewell and J. A. Raven: Photorespiration: Ribulose Diphosphate Oxygenase or Hydrogen Peroxide? 200

D. W. West and D. F. Gaff: A Controlled-environment Leaf Chamber to Allow Measurement of Gas Exchange by Leaves Undergoing Rapid Fluctuations in Temperature 205

A. Kaplan, J. Gale, and A. Poljakoff-Mayber: Simultaneous Measurement of Oxygen, Carbon Dioxide, and Water Vapour Exchange in Intact Plants 214

A. Kaplan, J. Gale, and A. Poljakoff-Mayber: Resolution of Net Dark Fixation of Carbon Dioxide into its Respiration and Gross Fixation Components in *Bryophyllum daigremontianum* 220

J. Grace and Julia Wilson: The Boundary Layer over a *Populus* Leaf 231

Kaarina Pihakaski and Tor-Henning Iversen: Myrosinase in Brassicaceae I. Localization of Myrosinase in Cell Fractions of Roots of *Sinapis alba* L. 242

Egbert W. Henry: Determination of Inositol in Inbred and Hybrid Corn (*Zea mays*) Seedlings 259

R. Cella, F. Sala, and H. E. Street: Studies on the Growth in Culture of Plant Cells 263

Lyndsey A. Withers: The Morphology of Free and Bond Polysomes in Cells and Subcellular Fractions of Suspension Cultures of *Acer pseudoplatanus* 277

R. Yu and J. Carter: Cross-linking Phytochrome to its Receptor *in situ* using Imidoesters 283

R. Yu, J. Carter, and T. Osawa: Separation of Particulate Phytochrome and Plasma Membranes of Maize Coleoptiles by Density Gradient Centrifugation 294

Ryszard M. Rudnicki and Joanna Nowak: Studies on the Physiology of Hyacinth Bulbs (*Hyacinthus orientalis* L.) VI. Hormonal activities in hyacinth bulbs during flower formation and dormancy release 303

H. Gee and D. Vince-Prue: Control of the Hypocotyl Hook Angle in *Phaseolus mungo* L.: The Role of Parts of the Seedling 314

K. M. Bailey, I. D. J. Phillips, and D. Pitt: Effects of Gibberellic Acid on the Activation, Synthesis, and Release of Acid Phosphatase in Barley Seed 324

A. K. Bisaria and A. K. Bisaria Jr.: Effect of Chlorflurenol on Sex Expression Fruit Set and Yield in *Abelmoschus esculentus* (L.) Moench 337

J. G. Roddick: Response of Tissues and Organs of Tomato to Exogenous α-Tomatine 341

T. E. Bostrom and N. A. Walker: Intercellular Transport in Plants II. Cyclosis and the Rate of Intercellular Transport of Chloride in *Chara* 347

H. Nassery and R. L. Jones: Salt-induced Pinocytosis in Barley and Bean 358

Adam Paszewski and Tadeusz Zawadzki: Action Potentials in *Lupinus angustifolius* L. Shoots III. Determination of the Refractory Periods 369

G. Hussey: Plantlet Regeneration from Callus and Parent Tissue in *Ornithogalum thyrsoides* 375

A. R. D. Taylor and J. L. Hall: Some Physiological Properties of Protoplasts Isolated from Maize and Tobacco Tissues 383

Book Review

Daphne Vince-Prue: Photoperiodism in Plants. K. E. Cockshull 393

NUMBER 98

D. R. Lockyer, D. W. Cowling, and L. H.P. Jones: A System for Exposing Plants to Atmospheres Containing Low Concentrations of Sulphur Dioxide 397

D. W. Cowling and D. R. Lockyer: Growth of Perennial Ryegrass (*Lolium perenne* L.) Exposed to a Low Concentration of Sulphur Dioxide 411

J. M. Palmer and G. P. Arron: The Influence of Exogenous Nicotinamide Adenine Dinucleotide on the Oxidation of Malate by Jerusalem Artichoke Mitochondria 418

R. J. Roughley, P. J. Dart, and J. M. Day: The Structure and Development of *Trifolium subterraneum* L. Root Nodules I. In Plants Grown at Optimal Root Temperatures 431

R. J. Roughley, P. J. Dart, and J. M. Day: The Structure and Development of *Trifolium subterraneum* L. Root Nodules II. In Plants Grown at Sub-optimal Root Temperatures 441

F. A. Smith and N. A. Walker: Chloride Transport in *Chara corallina* and the Electrochemical Potential Difference for Hydrogen Ions 451

Richard L. Roa and William F. Pickard: The Use of Membrane Electrical Noise in the Study of Characean Electrophysiology 460

John Roberts: An Examination of the Quantity of Water Stored in Mature *Pinus sylvestris* L. Trees 473

A. Hadas: Water Uptake and Germination of Leguminous Seeds Under Changing External Water Potential in Osmotic Solutions 480

D. J. Huber and D. W. Newman: Relationships Between Lipid Changes and Plastid Ultrastructural Changes in Senescing and Regreening Soybean Cotyledons 490

R. S. Dhindsa and J. D. Bewley: Water Stress and Protein Synthesis IV. Responses of a Drought-tolerant Plant 513

Robert Baxter and John E. McGowan: MDMP Action: Degradative Effects on Polyribosomes from Wheat Roots and the Inhibition of Protein Initiation 525

D. Broekaert, C. Cazier, and R. van Parijs: Histophotometric DNA Measurements in Sunflower Seedlings, Crown Gall Tumours, and Habituated Callus Tissues 532

Robert Edward Cook: The Pattern of Reproductive Development in *Chenopodium rubrum* L. 541

R. H. V. Corley: Sex Differentiation in Oil Palm: Effects of Growth Regulators 553

T. A. Mansfield: Delay in the Response of Stomata to Abscisic Acid in CO_2-free Air 559

S. N. Nigam and W. B. McConnell: Metabolism of Na_2 $^{75}SeO_4$ in *Astragalus bisulcatus*, Lima Bean, and Wheat: a Comparative Study 565

P. E. Marshall and T. T. Kozlowski: Importance of Endosperm for Nutrition of *Fraxinus pennsylvanica* Seedlings 572

Book Reviews

H. Y. Mohan Ram, J. J. Shah, and C. K. Shah: Form, Structure and Function in Plants. F. A. L. Clowes 575

S. Carlquist: Ecological Strategies of Xylem Evolution. P. Bell 575

W. J. Ridgman: Experimentation in Biology. An Introduction to design and analysis. J. A. Nelder 576

NUMBER 99

J. J. Landsberg, T. W. Blanchard, and B. Warrit: Studies on the Movement of Water Through Apple Trees 579

D. B. B. Powell and T. W. Blanchard: The Quantitative Analysis of Water Potential/Symplastic Water Volume Curves 597

G. A. Shirazi, J. F. Stone, and G. W. Todd: Oscillatory Transpiration in a Cotton Plant I. Experimental Characterization 608

G. A. Shirazi, J. F. Stone, and C. M. Bacon: Oscillatory Transpiration in a Cotton Plant II. A Model 619

G. S. Byott and D. W. Sheriff: Water Movement Into and Through *Tradescantia virginiana* (L.) Leaves II. Liquid Flow Pathways and Evaporative Sites 634

D. W. Sheriff: Water Movement Into and Through *Tradescantia virginiana* (L.) Leaves III. Uptake During Conditions of Dynamic Change. 641

D. W. Sheriff: An Apparatus for the Measurement of Leaf Dielectric Properties in the High Frequency Region 645

A. E. S. Macklon: An Examination by Compartmental Flux Analysis of the Development of Sodium and Chloride Absorption Capacities in Beetroot Disks 651

J. L. Hall and T. J. Flowers: Properties of Membranes from the Halophyte *Suaeda maritima* I. Cytochemical Staining of Membranes in Relation to the Validity of Membrane Markers 658

T. J. Flowers and J. L. Hall: Properties of Membranes from the Halophyte *Suaeda maritima* II. Distribution and Properties of Enzymes in Isolated Membrane Fractions 673

Hans Meidner: Water Vapour Loss from a Physical Model of a Substomatal Cavity 691

R. G. Hurd and H. Z. Enoch: Effect of Night Temperature on Photosynthesis, Transpiration, and Growth of Spray Carnations 695

J. N. Gallagher, P. V. Biscoe, and R. A. Saffell: A Sensitive Auxanometer for Field Use 704

Robin D. Graham: Physiological Aspects of Time of Application of Copper to Wheat Plants 717

G. Di Marco, S. Grego, T. Pietrosanti, and D. Tricoli: Seasonal Trends of Nitrate Reductase, Carboxylating Enzymes, and Water-soluble Proteins in Two Field-grown Cultivars of *Triticum* 725

G. C. Blackwood and B. J. Miflin: The Effect of Nitrate and Ammonium Feeding on Carbon Dioxide Assimilation in Maize 735

K. Varty and D. L. Laidman: The Pattern and Control of Phospholipid Metabolism in Wheat Aleurone Tissue 748

A. J. Colborne, G. Morris, and D. L. Laidman: The Formation of Endoplasmic Reticulum in the Aleurone Cells of Germinating Wheat: an Ultrastructural Study 759

P. Mazliak and A. M. Decotte: Effects of Four Detergents on the Oxidative and Phosphorylating Capacities of Potato Mitochondria 769

R. Hampp and A. R. Wellburn: Early Changes in the Envelope Permeability of Developing Chloroplasts 778

A. K. Sogeke and D. N. Butcher: The Effect of Inorganic Nutrients on the Hormonal Requirements of Normal, Habituated, and Crown-gall Tissue Cultures 785

J. L. Wakhloo: Changes in Endogenous Gibberellin-like Substances in the Vegetative Shoot and Inflorescences in *Solanum sisymbrifolium* Lam. in Relation to Potassium Content of the Plant 794

Judith G. Croxdale: Hormones and Apical Dominance in the Fern *Davallia* 801

Y. Cohen and A. Dovrat: Gibberellins and Inhibitors in Relation to Flowering of White Clovers (*Trifolium repens*. L.) 817

Olavi Junttila: Germination Inhibitors in Fruit Extracts of Red Beet (*Beta vulgaris* cv. *rubra*) 827

Book Reviews

T. R. G. Gray and J. R. Postgate: The Survival of Vegetative Microbes. S. R. Elsden 837

D. A. Baker and J. L. Hall: Ion Transport in Plant Cells and Tissues. E. A. C. MacRobbie 838

W. D. P. Stewart: Nitrogen Fixation by Free-living Micro-organisms. H. Dalton 839

M. H. Zimmerman and J. A. Milburn: Transport Plants I. Phloem Transport. E. W. Simon 841

NUMBER 100

Ariel Ratner and Benjamin Jacoby: Effect of K^+, its Counter Anion, and pH on Sodium Efflux from Barley Root Tips 843

Richard L. Roa and William F. Pickard: The Vacuolar pH of *Chara Braunii* 853

Adam Paszewski and Tadeusz Zawadzki: Action Potentials in *Lupinus angustifolius* L. Shoots IV. 859

Michael A. Borowitzka and Anthony W. D. Larkum: Calcification in the Green Alga *Halimeda* II. 864

Michael A. Borowitzka and Anthony W. D. Larkum: Calcification in the Green Alga *Halimeda* III. 879

MICHAEL A. BOROWITZKA and ANTHONY W. D. LARKUM: Calcification in the Green Laga *Halimeda* IV 894

JAMES DUNLOP: The Electrical Potential Difference Across the Tonoplast of Root Cells 904

JOYCE LEWIN and CHING-HONG CHEN: Effects of Boron Deficiency on the Chemical Composition of a Marine Diatom 916

R. D. MACLEOD and D. FRANCIS: Cortical Cell Breakdown and Laterial Root Primordium Development in *Vicia faba* L. 922

B. ACOCK, D. A. CHARLES-EDWARDS, and D. W. HAND: An Analysis of Some Effects of Humidity on Photosynthesis by a Tomato Canopy under Winter Light Conditions and a Range of Carbon Dioxide Concentrations 933

M. H. ALI and J. L. CARUSO: Morphogenetic Aspects of a Leafless Mutant in Tomato III 942

H. A. KORDAN: Oxygen as an Environmental Factor in Influencing Normal Morphogenetic Development in Germinating Rice Seedlings 947

M. TAL, A. ESHEL, and A. WITZTUM: Abnormal Stomatal Behaviour and Ion Imbalance in Capsicum *Scabrous Dimunitive* 953

S. MATTHEWS and N. E. ROGERSON: The Influence of Embryo Condition on the Leaching of Solutes from Pea Seeds 961

J. W. PATRICK and P. F. WAREING: Auxin-promoted Transport of Metabolites in Stems of *Phaseolus vulgaris* L. Effects at the Site of Hormone Application 969

I. F. M. VALIO: Germination of Coffee Seeds (*Coffee Arabica* L. cv. Mundo Novo) 983

K. RACHEL MALLOCH and DAPHNE J. OSBORNE: Auxin and Ethylene Control of Growth in Seedlings of *Zea mays* L. and *Avena sativa* L. 992

J. A. MCWHA and D. L. JACKSON: Some Growth Promotive Effects of Abscisic Acid 1004

MARGARET RADLEY: The Development of Wheat Grain in Relation to Endogenous Growth Substances 1009

M. G. MULLINS and C. SRINIVASAN: Somatic Embryos and Plantlets from an Ancient Clone of the Grapevine (cv. Cabernet-Sauvignon) by Apomixis *in vitro* 1022

LINDSAY HADDON and D. H. NORTHCOTE: The Effect of Growth Conditions and Origin of Tissue on the Ploidy and Morphogenetic Potential of Tissue Cultures of Bean (*Phaseolus vulgaris* L.) 1031

LYNDSEY A. WITHERS: Studies on the Growth in Culture of Plant Cells XXI. 1053

P. J. KING: Studies on the Growth in Culture of Plant Cells XX. 1073
